

## CONTENTS

<b>1. INTRODUCTION .....</b>	<b>7</b>
<b>2. VIBRATIONS.....</b>	<b>10</b>
2.1. Vibrations classification .....	12
2.2. Vibration sources .....	14
2.3. Impact of vibrations on man.....	17
2.4. Methods of assessing the impact of vibrations on humans .....	22
<b>3. EFFECT OF VIBRATIONS ON DRIVER AND PASSENGERS OF CAR VEHICLES.....</b>	<b>29</b>
3.1. Impact of local vibrations on the driver and passengers through the steering wheel and handles in passenger cars.....	30
3.2. Effect of road surface on general vibrations in passenger cars and delivery vans .....	51
3.3. Impact of road conditions on general vibrations in passenger cars.....	57
3.4. Comfort of driving selected passenger cars and lorries .....	71
3.5. General vibrations felt in the oldest passenger cars .....	75
3.6. Effect of tires on general vibrations in a passenger car.....	82
3.7. Vibration-isolation function of seats in a passenger car.....	87
3.8. Impact of suspension type on the perceived comfort of driving a car .....	99
3.9. The effect of the type of drice on general vibrations in public trasport buse.....	105
3.10. General vibrations felt when going over speed bumps .....	108
<b>4. NOISE .....</b>	<b>122</b>
4.1. Impact of noise on humans .....	126
4.2. Noise sources .....	128
4.3. Measurement of noise.....	129
<b>5. NOISE IMPACT ON DRIVER AND PASSENGERS OF CAR VEHICLES.....</b>	<b>134</b>
5.1. Noise acting on the driver and passengers in selected passenger cars .....	135
5.2. Impact of noise on the comfort of driving passenger cars .....	147

5.3. Impact of operating conditions on noise in passenger cars .....	152
5.4. Noise inside and outside passenger cars.....	157
5.5. Noise in old passenger cars and trucks.....	167
5.6. Noise on old public buses.....	189
<b>6. COMMUNICATION NOISE.....</b>	<b>192</b>
6.1. Measurement of communication noise.....	192
6.2. Noise assessment along selected communication routes of the Upper Silesian agglomeration .....	193
6.3. Assessment of traffic noise on the example of housing estate .....	200
6.4. The use of acoustic maps in the analysis of the effectiveness of acoustic screens .....	208
<b>7. VIBROACOUSTIC DIAGNOSTICS.....</b>	<b>218</b>
7.1. Measurement and processing of vibroacoustic signals .....	220
7.2. Diagnostic systems using vibroacoustic signals and artificial intelligence methods .....	237
<b>8. VIBROACOUSTIC DIAGNOSTICS OF SELECTED ELEMENTS OF     CAR VEHICLES.....</b>	<b>241</b>
8.1. Diagnosing damage to the belt tensioner.....	242
8.2. Diagnosing bearing arrangements of car wheels.....	248
8.3. Diagnosing the technical condition of the car's internal combustion engine water pump.....	250
8.4. Diagnosing failures of components of a car's internal combustion engine not detected by the OBD system.....	255
<b>BIBLIOGRAPHY .....</b>	<b>263</b>
<b>Abstract .....</b>	<b>291</b>
